

IR Policy

cBrain operates a small Investor Relations department which has the principal role of developing and managing the relationship between cBrain and the market.

cBrain's Management makes itself available to a wide range of third parties including investors, potential investors and financial analysts and holds meetings and conversations within the scope allowed by applicable law and regulation.

At the Annual General Assembly 2023 it was decided to change the language supporting investor relations to English reflecting that cBrain have investors in more than 40 countries and to meet the wishes of existing foreign investors and potential new investors from outside Denmark.
